## Why Use A Rain Barrel?

- Cost -effective alternative to using tap water for watering yards and gardens.
- Better plant growth when watered with rainwater.
- Decreased erosion in your downspout area.
- Reduces peak volume and velocity of **Storm water** runoff to streams and storm sewer systems.
- No chemicals and energy spent processing drinking water for your plants.
- Rain barrels reduce water pollution by reducing **Storm water** runoff which can contain pollutants like sediment, oil, grease, bacteria, and nutrients.
